Street Rehabilitation Program

City of Cincinnati
Department of Transportation and Engineering
City Hall, 801 Plum Street 45202

Visit us at: www.cincinnati-oh.gov

Dear Cincinnati Resident,

The street rehabilitation program is one very important way that the City of Cincinnati is investing in our neighborhoods. It is through this program that we repave roads and put in new curbs that make our streets safer and cleaner for you.

The streets that are scheduled for 2005 rehabilitation are listed in this brochure. Every neighborhood has some of its streets rehabilitated once every three years based on careful evaluation by both city engineers and outside consultants.

As the City undertakes the process of improving these streets, you may have raised sewer lids or uneven roadways until all the work is completed. We ask for your patience, and hope you will be pleased with the end results.

It is just one more way that the City provides successful services that make a difference in our communities.

Sincerely,

Valerie Lemmie, City Manager

Charlie Luken, Mayor

Major Routes Program

Limits

About the Street Rehab Program

The City of Cincinnati Department of Transportation and Engineering's Street Rehabilitation Program handles street resurfacing and significant curb repairs. This work includes grinding off the old roadway surface, resurfacing the pavement with new asphalt, and repairing/replacing curbs where necessary. Every Community in the City of Cincinnati will be targeted for roadwork on a three year rotation under the Street Rehab Program. The streets listed in this brochure are scheduled to be rehabilitated during the 2005 and 2006 construction seasons.

For more information on the Street Rehabilitation Program contact Dick Cline at dick.cline@cincinnati-oh.gov or at 352-6235.
